<b>Authorship for librarian granted?</b>	Yes, Stephanie Roth (title/affiliation above)	*Granted on submitted Protocol Form/submitted on 4/6/2021	The librarian at the level of co-author agrees to submit a high quality literature search and to write the search methods statement.	
<b>Acknowledgement:</b>	N/A		The primary investigator (PI) agrees to use the methods and the search appendix items that the librarian provides in the final manuscript. If the PI changes or alters any of these, they must submit these changes to the librarian for approval. If the PI does not meet this requirement, the librarian has the right to remove his/her name and all associations from the manuscript.	
			The librarian co-author must review the manuscript before submission. If the PI doesn't provide the manuscript the librarian has the right to remove his/her name and all associations from the manuscript.	
			If, upon review, the librarian co-author determines that appropriate research methods and guidelines were not followed the librarian has the right to remove his/her name and all associations from the manuscript.	
			The librarian agrees to make any updates to the methods statement required after peer review of the manuscript.
